

POOJITHA DONTHALA

Visakhapatnam | 8639909927 | ✉ poojithadonthala@gmail.com

SUMMARY

Enthusiastic and dedicated Computer Science and Engineering undergraduate with hands-on experience in Machine Learning, Database Management, and Frontend Development. Proficient in Python, SQL, Java, and modern web technologies, with practical experience in data analysis, model development, and responsive web application design. Skilled in problem-solving, data visualization, database querying, and developing user-friendly web interfaces. Passionate about applying technology to solve real-world problems while continuously enhancing technical and analytical skills through projects and research.

EDUCATION

Maharaj Vijayaram Gajapathi Raj College of Engineering, Vizianagaram B.Tech - Computer Science & Engineering - CGPA: 8.50	2023-2027
Tirumala Junior College, Visakhapatnam Intermediate - MPC - 98.2%	2021-2023
Harboor E.M School, Visakhapatnam SSC - 97.16%	2020-2021

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java, SQL

Machine Learning & Data Analysis: Machine Learning, Data Preprocessing, Feature Engineering, Model Building, Model Evaluation, Data Visualization

Web Development: HTML, CSS, JavaScript, Bootstrap

Tools & Platforms: MySQL, Jupyter Notebook, Google Colab, UI/UX(Figma), Git/GitHub, MS Office, Excel, Tableau, Power BI

EXPERIENCES

Research Intern | National Institute of Technology Warangal (NITW)

- Worked on EEG-based Motor Imagery Classification using machine learning and deep learning techniques.
- Performed EEG signal preprocessing, feature extraction, model development, and performance evaluation.
- Conducted literature review and implementing research methodologies for brain-signal classification.

Web Development Intern | EI Systems Technologies (with Technex IIT BHU)

- Completed an 8-week virtual internship in frontend web development.
- Developed a responsive To-Do List application using HTML, CSS, JavaScript, and Bootstrap.

PROJECTS

Machine Learning Projects	Additional Projects
Customer Segmentation using K-Means • Customer behavior analysis and segmentation using K-Means clustering. • Visualized and interpreted customer groups.	Assistive Technology AI Proposal • Guided By Echo (for visually impaired people) • Designed an AI-based accessibility solution during an Ideathon.
Handwritten Digit Recognition • Built a digit classification model using the MNIST dataset. • Achieved ~98% accuracy using Logistic Regression.	Village Sanitation Tracking Dashboard • Developed a dashboard concept for community sanitation monitoring.

CERTIFICATIONS

- **Cisco** - Python Essentials 1 & 2, HTML Essentials, Junior Cybersecurity Analyst, Data Analytics Essentials
- **AWS** - Machine Learning Foundations, Generative AI Foundations
- **SkillUp** – Design Thinking for Beginners

ACHIEVEMENTS

- **Senior Under Officer** (SUO), NCC – Demonstrated leadership, discipline, and team management skills.
- Active participant in **cultural** and **sports** activities.
